Avast Endpoint Protection Suite Plus

Market-leading security for PCs and servers

A World-class solution for PCs, Macs, and servers. Manage your business security easier with an intuitive and easy-to-use cloud-based system.

Boot-Time Scan

Award-winning Anti-malware

Sandbox

THE BIG BENEFITS

Lock down your data

Combining the protection of a firewall with the most-trusted cloud-based security engine in the world, Avast Endpoint Protection Suite Plus keeps your PCs, servers, and business up, running, and safe.

Manage your network

Avast Endpoint Protection Suite Plus lets you choose between an easy- to-use, web-based Small Office Administration console for flat networks and a more robust Enterprise Administration for more complex offices.

Do less and protect more

With Avast Endpoint Protection Suite Plus you can secure Microsoft Exchange, SharePoint, SBS, and file servers from the same control console you use for PCs. Get alerts, add security, and customize reporting all without leaving your desk.

THE TECHNICAL FEATURES

PC workstations

SILENT FIREWALL

Protects with heuristic and behavioral analysis plus a white list.

ANTISPAM WITH ANTI-PHISHING

Includes comprehensive spam and phishing filters.

BEHAVIOR SHIELD

Employs sophisticated logic to detect unusual behavior.

ANTIVIRUS AND ANTI-MALWARE

The world's most-trusted antivirus and anti-malware engines.

BOOT-TIME SCANS

Detects malware buried deep in your computer's start-up processes.

AVAST SANDBOX

Runs unknown files in a virtual environment to protect PCs and networks.

STREAMING UPDATES

Unobtrusive micro-updates keep you protected.

Servers

INTEGRATED FILE-SERVER PROTECTION

Includes scalable scanning for servers plus support for clustering.

SHAREPOINT SERVER PLUGIN

Tightly integrates with SharePoint 2003/2007/ 2010/2013 Servers.

ANTISPAM

Includes antispam features for Microsoft Exchange servers 2007/2010/2013 with the latest Service Pack.

MICROSOFT EXCHANGE SERVER

Supports MS Exchange 2003/2007/2010/2013 email servers.

LOW IMPACT PROTECTION

Places low demands on system resources.

THE TECHNICAL FEATURES

Small office administration (200 devices or less)

WEB-BASED CONSOLE

Provides easy-to-navigate, web-based dashboard to manage security.

AUTO-DISCOVER NEW AND ROGUE SYSTEMS

Immediately notifies you when new or rogue PCs connect.

REMOTE INSTALLATION AND UPDATES

Allows you to secure new or unprotected PCs from your desk.

COMPREHENSIVE REPORTING

Provides customized reports for audits and compliance.

SCHEDULE AND RUN SCANS

Allows you to schedule scans when people aren't working.

REAL-TIME ALERTS

Receive SMS or other alerts for unauthorized activity.

Enterprise administration (more than 200 devices)

CREATE NETWORK HIERARCHY

Organizes devices into a tree structure for rights and policies.

DISCOVER AND DEPLOY REMOTELY

Discovers new PCs so you can deploy security or limit access.

ENHANCED REPORTING

Offers graphical and tabular reports for compliance and auditing.

DYNAMIC GROUPS

Dynamic device grouping capability and detailed filtering options for superior administration capabilities on large networks.

NO DEVICE LIMIT

Suitable for networks of any size.

FULL LOCAL MIRROR

Save bandwidth by only downloading once! Local distribution of signatures and updates enables offline machines to remain fully protected.
