AVG INTERNET SECURITY BUSINESS EDITION 2016

- ✓ Ransomware, Virus and Malware Protection
- ✓ Business Firewall Security
- ✓ Email Server Protection
- ✓ File Server Protection
- ✓ Remote Management
- ✓ Free Phone Support
- ✓ Always Updated

Powerful new features that protect your business

AVG® Internet Security Business Edition 2016 is more powerful than ever before with new features designed to keep your critical business and customer data safe from ransomware, viruses, and malware protect your email and file servers, and keep your employees safe online.

Multi–Layer Ransomware Protection	AVG's Business Editions utilize a multi-layered approach to detecting and eliminating ransomware. When a file passes successfully through one level of testing it is handed off to another layer for even more scrutiny.
Protect against the newest Malware with Outbreak Detection	We use advanced artificial intelligence to proactively identify malware samples that haven't yet been catalogued by our AVG ThreatLabs team.
Scan faster with our new scanning engine	The 2016 scanning engine implements our most advanced algorithms that shorten scanning times so customers can work more efficiently and effectively.
Business Firewall	Protect your network from unauthorized access
Remote Management	Easily deploy and manage your network antivirus software on your PCs, laptops and file servers.
Email Protection	Reduce your risk from online spam; scanning detects infected or rogue inbound attachments.
Secure deletion with File Shredder	New for 2016, File Shredder securely deletes data to help prevent unintended recovery.
Secure your most valuable files with Data Safe	Create encrypted, password protected virtual disks on your systems and add another layer of protection for your folders and files.
Protect from the quick click with Online Shield	Online Shield is improved with cloud-based detection to identify dangerous downloads faster than ever. Check files before you download them (including Dropbox/Box) to help ensure they are safe and you stay protected.

AVG achieved highest rating on AV test.org
AVG scored 6 points out of 6 under the Business category of AV-Test.org; an independent, neutral testing company.

Internet Security Business Edition 2016

AVG INTERNET SECURITY BUSINESS EDITION 2016

Stop online threats. Not business
Keep business moving with AVG's award-winning endpoint protection. Protect your business network from ransomware, viruses and online threats. Block hackers and stop malware from taking over your computers or laptops on wired and wireless networks.

Keep employees safe online with Network AntiVirus
Free your workforce to surf, search and download with confidence. Smart prevention technology checks every web page and alerts you if it detects anything suspicious. WiFi Guard helps you avoid rogue WiFi access points used by hackers.

Keep business communication clean, clear and fast with Email Server Protection
Send messages with confidence and remove clutter from your inbox. Reduce your risk of online spam; scanning detects infected or rogue inbound attachments.

Keep customer information safe from hackers with File Server Security
Maintain your integrity as a reliable business partner by ensuring all your customer data is kept private.

Control your computers and servers with remote management from a single console
Manage your endpoint protection and server antivirus software remotely on your network and stay in control no matter where you are. Easily deploy and manage your network antivirus software on your PCs, laptops and file servers.

Free phone support
Breathe easy knowing that AVG experts are always a phone call away.

Smart, actionable alerts
Detects and alerts you to problems that you can address easily from the simple dashboard.
