# WHY DO YOU NEED **PANDA DOME COMPLETE**?

I need to protect all my devices in real time from all kinds of viruses.

I want to keep my Wi-Fi safe from hackers and piggybacking neighbors.

I use USB devices and I want to avoid any kind of infection.

I browse, shop, and make bank transactions online, and I want to be completely safe.

I'm worried about my children downloading or using apps that they shouldn't. I want them to be safe, and I want to know where they are at all times.

I want to avoid any kind of identity theft, or theft of my data, my memories, or my personal sensitive information. All of it, always safe from ransomware and all kinds of advanced attacks.

I always use the same date as a password for everything and I know it's not safe. I definitely need a password manager!

I manage confidential information and I need to be sure that I'm the only one who can access it.

I've only had my computer for two years and it gets slower every day! I need a tool to optimize my computer and make it run like new.
